

DESIGNMIAMI

continued from 70

Each year, Design Miami includes four components: The Design Galleries to exhibit and sell valuable work; The Satellite Exhibitions consisting of curated installations that communicate key themes in contemporary design; The Design Talks that bring together international luminaries to tackle current issues in design today; and two Design Award presentations annually — the Designer of the Future in Basel every June and the Designer of the Year in Miami every December.

For more information, visit www.designmiami.com or call 305/572-0866. **M**
